General Information:

In the past years there have been only a small number of manufacturers who have tried, as with this Brough Superior SuperSport, with extreme effort and the 100 year old history to tie. We are of course pleased that we can present this machine, produced in only a small number of pieces. It is not only visually and above all technically a rarity, which was constructed with many elaborate details, but it is also fun when the Brough is moved.
