General Information:

Again and again we are asked how it is possible that we can offer vehicles in the quality we are used to. One of the reasons is that we decide together with our technician which motorbike to include in our portfolio and which not. The RS 250 is a good example of this. Only after we were convinced of the quality of the technology and, of course, the look, was the decision for this RS 250 very easy. Our RS has had two previous owners. In spring 2022, a complete engine overhaul was carried out and then the RS was moved around 500 km. The first invoice, service booklet, several invoices, T?V reports, partial invoice for the engine overhaul and German vehicle documents are available, so we can speak of an optimal offer.
