General Information:

Fisker & Nielsen were known for the manufacture and sale of Nilfisk hoovers. Father P. A. Fisker and son Dipl.-Ing. Andreas Fisker developed the Nimbus I in parallel from 1918 to 1928. Development of the Nimbus II began in 1932 and it was presented for the first time in 1934. The first machine presented in 1934 had the chassis number 1301. Our Nimbus dates from the production year 1937. The machine was extensively restored around 30 years ago. A whole series of invoices are available. Since then, the Nimbus Sport 750 has been driven repeatedly at events. German vehicle documents are available for this Nimbus.
